

## - Men's League News Update

From Bob ---- I take pen in hand to clarify the Wednesday Men's League.

First is the format. It is not match play. It is stroke play, the same format we have used for fifteen years.

Second is teams. I thought it would be easier to play individually; however, many have requested to continue to play as teams.

We will have it both ways this summer. You can choose to play in the early time slot, in the later time slot, or both time slots. It is also your choice to play individually or on a team in one time slot or both time slots. Food for thought: You could play as a team early and as an individual later or visa-versa. We will post positions for all matches – whether as a team or an individual.

Matches will begin May 3. Please inform me by phone (315-778-8698) or snail mail or in person if you are playing, which time slot, and as a team or individual. We are trying to cover all of the scenarios to get more guys playing on Wednesday night.

Please share with anyone that I may have missed. Hope to see you on May 3.
